

### Platinum Bullion Bars

Made of 99.95% pure platinum, bullion bars come in a variety of sizes, styles and brands.

Bars range in size from 1-ounce to 50-ounces. Bars can be “cast” or “minted.” There are many different “hallmarks” (the name/brand for the refiner who produced the bar). Small bars, 1-ounce to 10-ounces, are manufactured to precise specifications and contain the corresponding amount of pure platinum. Large bars, 50-ounce, are “odd-weight” bars. “50-ounce bars” can actually weigh between 46.5-ounces and 53.5-ounces. All platinum bullion bars are bought and sold based on their gross weight. Platinum bars can be shaped differently depending on the brand.
