

Silver Bullion Bars

Made of 99.9% pure silver, bullion bars come in a variety of sizes, styles and brands.

Bars range in size from 1-ounce to 1,000-ounces. Bars can be “cast” or “minted.” There are many different “hallmarks” (the name/brand for the refiner who produced the bar). Small bars, 1-ounce to 100-ounce, are manufactured to precise specifications and contain the corresponding amount of pure silver. Large bars, 1,000-ounce, are “odd-weight” bars. “1,000-ounce bars” can actually weigh between 900-ounces and 1,100 ounces. All silver bullion bars are bought and sold based on their gross weight. Silver bars can be shaped differently depending on the brand.
